#### 4. First Aid Measures

##### 4.1. Description Of First Aid Measures

**General:** In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

**Inhalation:** Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention. Give nothing by mouth. If breathing is difficult, give oxygen. Get medical attention immediately.

**Eyes:** Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.

**Skin:** Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser. Wash skin with plenty of water. Wash contaminated clothing before reuse. Get medical attention if irritation or allergic reaction develops.

**Ingestion:** Contact a physician, medical facility, or poison control center. Induce vomiting. Seek medical attention.

##### 4.2. Most Important Symptoms And Effects, Both Acute And Delayed (Overview)

**Eye Contact:** May cause irritation with discomfort, tearing, or blurring of vision.

**Inhalation:** Can cause mild irritation. Effects may include irritation of the upper respiratory passages with coughing and discomfort.

**Ingestion:** May cause irritation to mucus membrane and gastritis.

**Skin Contact:** May cause irritation or reddening with discomfort or rash.

**Aggravated Medical Conditions:** Dermatitis.

**Skin:** Causes mild skin irritation.

#### 5. Fire-Fighting Measures

##### 5.1. Extinguishing Media

Applicable to the primary cause of the fire. Flood with water.

##### 5.2. Special Hazards Arising From The Substance Or Mixture

Hazardous decomposition: Oxides of Carbon.

##### 5.3. Advice For Firefighters

Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes. Fire or excessive heat may produce hazardous decomposition products. Cool closed containers exposed to fire by spraying them with water. Do not allow run off water and contaminants from fire fighting to enter drains or water ways.

**ERG Guide No.**

#### 6. Accidental Release Measures

##### 6.1. Personal Precautions, Protective Equipment, And Emergency Procedures

Put on appropriate personal protective equipment (See Section 8).

##### 6.2. Environmental Precautions

Do not allow spills to enter drains or waterways. Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

##### 6.3. Methods And Material For Containment And Cleaning Up

Review fire and explosion hazards and safety precautions before proceeding with cleanup. Use appropriate personal protective equipment. Avoid contact with skin and eyes. Stop the spillage. Dike the spill. Prevent liquid from entering sewers, waterways or low areas. Absorb spillage in inert material. Soak up with sawdust, sand, or other absorbent material. Remove non-usable solid material and/or contaminated soil for disposal in an approved and permitted landfill. Discharge to sewer requires approval of permitting authority and may require pretreatment.

## 8. Exposure Controls And Personal Protection, cont.'

### 8.2. Description Of First Aid Measures

<b>Respiratory</b>	Avoid inhalation of the product vapors. When this product is used in the intended way, no respiratory protection is anticipated to be necessary. A respirator should be worn if hazardous decomposition products are likely to be or have been released. Respirator type: Acid gas.
<b>Eyes</b>	Safety glasses with side shields (or goggles).
<b>Skin</b>	Latex, rubber, or neoprene waterproof gloves are recommended.
<b>Engineering Controls</b>	Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn. Good ventilation of 10 room volumes per hour. Ventilation must be adequate to keep hazardous ingredients below their exposure limits.
<b>Other Work Practices</b>	Safety showers and eye wash stations should be provided in areas where this product is used. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse. See Section 2 for further details [Prevention]
